But when a long train of abuses and usurpations, which have violated the rights of the Colonies, and which in a course of time would have made them independent States, has put them in such a state, that a decent respect to the opinions of mankind requires that they be treated equal, that they are endowed by their Creator with certain unalienable rights, that among these are life, liberty and the pursuit of happiness.

He has endeavoured to prevent the population of these States; by refusing to assent to laws for the encouragement of new Appropriations of money; and by making Judges dependent on his Will alone for the tenure of their offices, and the amount and payment of their salaries; and by establishing an Office of Prerogative, by which he has endeavoured to subvert the Rights of the People at large for their exercise; the State to invade the rights of the People; and by declaring themselves invested with power to legislate for us in all cases whatsoever.

# Introducing West Chester

**Q**uality education at a reasonable price. . .this is the goal of West Chester State College, one of the largest of the fourteen institutions of higher learning owned and maintained by the Commonwealth of Pennsylvania. A comprehensive and multi-purpose college, West Chester serves individuals of all ages offering a variety of programs to fill their educational needs.

Listed in detail on the opposite page, these encompass liberal arts, science programs, teacher training and certification, preparation for advanced study in fields such as medicine and law, education for specific professions, and continuing education.

Total enrollment at West Chester includes more than 6,100 full-time undergraduate students, about 1,300 part-time undergraduates, and nearly 1,900 graduate students. While most of these are recent high school graduates preparing for career objectives, many others are older individuals including veterans and homemakers who either never before had the opportunity for a college education or whose schooling was interrupted.

While the school's primary function is the education of Pennsylvania residents, high quality students from other states and foreign countries are welcome. West Chester's student body represents a cross section of many ethnic, racial and religious groups and includes students from all economic levels.

Like the world around it, West Chester State College is constantly changing and growing. The school continues to broaden and modify the nature and number of its programs to reflect the needs of its students in their endeavor to prepare themselves for success and fulfillment in life.

## HISTORY OF THE COLLEGE

Although its founding year is 1871, the College in fact has deeper roots tracing from the West Chester Academy, a private, state-aided school which existed from 1812 to 1869. The Academy enjoyed strong support from the highly intellectual Chester County society of the pre-Civil War decades. It was recognized as one of Pennsylvania's leading preparatory schools, and its experience

## **2/introducing west chester**

in teacher-training laid the groundwork for the normal school years that were to follow.

As the State began to take increasing responsibility for public education, the Academy was transformed into West Chester State Normal School, still privately owned but state-certified. The Normal School admitted its first class of 160 students on September 25, 1871. In 1913 West Chester became the first of the normal schools to be owned outright by the Commonwealth.

West Chester became West Chester State Teachers College in 1927 when Pennsylvania initiated a four-year program of teacher education. In 1960, as the Commonwealth paved the way for liberal arts programs in its college system, West Chester was renamed West Chester State College, and two years later introduced the liberal arts program which turned the onetime academy into a comprehensive college.

### **LOCATION OF THE COLLEGE**

West Chester State College is in West Chester, a town which has been the seat of government in Chester County since 1786. With a population of about 20,000, the Borough proper is small enough to have the pleasant aspects of a tree-shaded American town, large enough to contain essential services and the substance of a vigorous community, and old enough to give the student first-hand touch with America's early history.

Students may walk to West Chester's many churches. West Chester has excellent stores and shops, and a fine hospital. The heart of the town is its courthouse, a Classical Revival building designed in the 1840's by Thomas U. Walter, one of the architects for the Capitol in Washington, D.C. The town was settled in the early 18th century, principally by members of the Society of Friends; charming traces of their culture remain in the community.

West Chester today is part of the rapidly growing suburban complex surrounding Philadelphia and offers interesting opportunities for the study of local, county, and regional government in a period of change and growth.

Philadelphia is 25 miles to the east and Wilmington 15 miles to the south, putting the libraries, museums, and other cultural and historical resources of both cities in easy reach. Valley Forge, the Brandywine Battlefield, Longwood Gardens, and other historical attractions are near West Chester.

### **HOW TO REACH WEST CHESTER**

The Borough of West Chester is easily accessible from all directions both by car and public transportation. Route 3, the West Chester Pike, leads directly into town from center-city Philadelphia. From the Pennsylvania Turnpike, motorists traveling west should take

Route 202 south from the Valley Forge Interchange while those traveling east can arrive via Route 100 south from the Downingtown Interchange. From the south, Route 202 from Wilmington and Routes 100 and 52 from U.S. Route 1 all lead to West Chester.

By public transportation, SEPTA buses run from the 69th Street Terminal in Philadelphia into the center of town while the Penn Central Railroad also operates a limited schedule from Philadelphia's 30th Street and Suburban Stations to West Chester.

## DESCRIPTION OF THE CAMPUS

The College has a land area of 385 acres. North Campus, an expansion of the original campus, occupies 94 acres at the southern boundaries of the Borough of West Chester. South Campus, which came into full use in 1970, is a 291-acre expanse of the gently rolling countryside which Andrew Wyeth has defined in his landscapes of Chester County.

Fronting on South New street 3/4 mile south of the original College, South Campus contains the huge new Health and Physical Education Center, which has won national acclaim for the quality and extent of its teaching, performance, and research facilities. John A. Farrell Stadium, playing and practice fields, and tennis courts surround the Center. Included in the open areas is a stretch of natural forest, part of which has been conserved as a resource for the natural sciences. Other sectors are marked for future building development.

Architecturally, North Campus combines late 19th century, collegiate Gothic, and contemporary styles. Four of the College's green-hued serpentine stone buildings, which have given West Chester a unique character for many decades, are still in use. The College is also known for its magnificent old trees.

The \$44,000,000 building program of the 60's produced a number of major facilities and utilities which equip the College well for the needs of modern education. The Learning Research Center, the library, Mitchell Hall (Fine Arts), and the two phases of Schmucker Science Center are major additions, along with six high-rise residence halls which span the western side of North Campus.

The principal buildings on North Campus are

*Administration Building* (1899), which contains the offices of Undergraduate Studies, Graduate Studies, Admissions, the Enrollment Center, Scheduling and Academic Records, Veterans' Affairs, the Higher Education Opportunity Program, the coordinator of Summer School and Public Relations.

#### 4/introducing west chester

*Anderson Hall* (1938), a large five-floor classroom building, extensively renovated in 1966, which houses the offices of the Deans of the Schools of Education and Social and Behavioral Sciences, the office of the Director of Student Teaching and the Departments of Business and Economics, Counselor Education, Elementary Education, Secondary Education and Professional Studies, Geography and Planning, Instructional Media Education, Mathematics and Psychology.

*Elsie Oleita Bull Learning Research Center* (1968), containing the computer center, a television studio, and research offices.

*Ehinger Gymnasium* (1930) and *Hollinger Field House* (1949), connected buildings serving the School of Health and Physical Education and housing the Recreational Services Program.

*Francis Harvey Green Library* (1966), described below.

*Lawrence Center* (1965), whose facilities include the Career Development Center, the Counseling Center, the campus post office, dining halls and a snack bar.

*Main Hall* (1974), is the newest of the classroom buildings and meets the needs of many humanities programs. The administrative offices of the School of Arts and Letters are in Main, as are the Departments of English, Foreign Languages, History, Philosophy, and Speech Communication and Theatre. A lecture hall seating 400 and the language laboratory are major features of Main, which stands on the grounds of the College's original building, Old Main.

*Maintenance Building* (1968), a multi-purpose building accommodating the Plant Maintenance and Department of Law Enforcement offices, various maintenance shops, the Centrex Automatic telephone exchange, and the fire detection center.

*Lloyd C. Mitchell Hall* (1970), a fine-arts classroom building which is the location of the Art Department and its exhibition galleries. It also provides additional classrooms, practice rooms and offices for the School of Music whose building (Swope Hall) is adjacent to the new hall.

*Old Library* (1902), a Classical Revival serpentine building in which can be found Educational Media Services, College Duplication Center, Publications, Social Welfare Center, the Department of Anthropology, Sociology, and Social Welfare, the office of the Director of International Education and Chester County Instructional Materials Service.

*Philips Memorial Hall* (1925), an outstanding example of collegiate Gothic which houses the Offices of the President, the Office of the Vice President for Administration and Fiscal Affairs, the Office of

Business Affairs, Philips Memorial Library, the College's largest auditorium, the faculty lounge and conference rooms.

*Recitation Hall* (1892), a serpentine building which holds classrooms, Studio 208, the Reading Clinic and the Department of Nursing.

*Reynolds Hall* (1871), a former farm house constructed of serpentine and occupied by the College Health Service and the administrative offices of the Division of Facilities.

*Schmucker Science Center* (1968), a two-phase center including the Biological Sciences and Physical Sciences buildings. The Center contains classrooms and laboratories, a planetarium, astronomical observatory, television studio, an auditorium, and the Darlington Museum and Herbareum. The administrative offices of the School of Sciences and Mathematics are in Schmucker.

*Special Education Building* (1960), contains classrooms, a clinic area for special education, and offices of the coordinators of special education and urban education.

*Swope Hall* (1959), houses the School of Music, including offices, classrooms, an auditorium, choral and instrumental rooms, a music library, and a music listening room.

*Sykes College Union Building* (1975), of modern design, which contains the offices of the Vice President for Student Affairs, Student Housing, the Director of Student Activities, I.G.A. Business Manager, I.G.A. Ticket Sales and Student Government. The College Book Store, conference rooms, lounges and the College radio broadcasting studio are also found in Sykes.

*Tanglewood*, a historic and handsome residence with beautiful grounds, occupied by the President of the College.

*Residence Halls.* Killinger (1959), McCarthy (1960), and the following high-rise halls; Goshen, Ramsey, and Tyson (1966); Sanderson (1969); and Schmidt and Wayne (1971).

A boiler plant, water pedisphere, garage, and laundry, along with several annex houses, complete the physical plant of North Campus.

South Campus facilities presently include:

*Health and Physical Education Center* (1970), which contains a one-acre gymnasium, divisible into six pneumatically sealed gymnasiums; a three-point natatorium; multi-purpose teaching stations; research facilities; administrative offices; 16 lecture classrooms; two dance studios, a physiological research laboratory; two physical therapy rooms; two sauna baths, and other facilities.

## 6/introducing west chester

*John A. Farrell Stadium* (1970), providing spectator seating for 7,500 at varsity football and track events, a press box, lighting for night games, and concessions and rest areas.

*Athletic Field Complex* (1969-70), playing and practice fields for football, hockey, soccer, lacrosse, and baseball; tennis courts; night lighting; and parking for 1,000 cars.

### FRANCIS HARVEY GREEN LIBRARY

The new Francis Harvey Green Library, opened in 1966, provides an excellent environment for study and research. When a six-story addition is put into service in 1976, the complex will house one-half million books and will be furnished with studies and lounges, expanded microform and periodical areas, an enlarged instructional materials center and uniquely designed special collections room.

The library has an increasingly important role in both teaching and research with its growing collection of more than 320,000 volumes and subscriptions to over 2500 journals. Augmenting this general collection with more than 300,000 titles is the micromedia collection including books, periodicals, newspapers and doctoral dissertations along with the facilities to read this material.

Other noteworthy collections can be found in the library complex. An extensive holding of courses of study and textbooks and a variety of audio-visual materials are held in the instructional materials center; sheet music, scores and records are housed in the Music Library of Swope Hall. Also available are separate collections for children's literature and government documents.

The Special Collections Room holds the Chester County Collection of scientific and historical books; the Normal Collection (historical books on physical education and publications by and about the faculty and alumni); the *Biographies of the Signers of the Declaration of Independence* by John Sanderson; and the Shakespeare Folios. The Philips Autographed Book Library is kept in a specially designed room in the Philips Memorial Building.

West Chester students may take advantage of the library's many services such as reference, interlibrary loan and photoduplication. To add to the cultural enrichment of the college community the library schedules informative displays and art exhibits throughout the year.

## EDUCATIONAL SERVICES

**BUREAU OF EDUCATIONAL MEDIA SERVICES.** The Bureau assists faculty members in the planning and production of educational media for classroom use. It also operates the closed-circuit system employed when segments of appropriate courses are taught by television. The Bureau's services include production in the areas of still photography, recording, duplicating, and overhead transparencies.

**CHESTER COUNTY INTERMEDIATE UNIT INSTRUCTIONAL MATERIALS SERVICE.** West Chester is headquarters for this center, which makes more than 3,200 films available to the 113 schools it serves. The center also maintains the College film library and promotes effective use of instructional materials and technology in the 12 affiliated school districts. College faculty and student teachers may make use of these facilities.

**BUREAU OF RESEARCH AND RELATED SERVICES.** The Bureau of Research and Related Services fosters the development of basic, applied, and institutional research and provides facilities for the tabulation and analysis of research data. The research function of the Bureau encompasses studies initiated by the faculty and administrative staff of the College as well as cooperative endeavors carried on under the joint sponsorship of the College and various external educational agencies and foundations. The Bureau assists faculty and students to secure financial support for their research projects. A computer center, statistical laboratory, and research facilities are maintained in the Learning Research Center.

Data processing services include the tabulation and summarization of information essential to the operation of the various administrative divisions of the College and the statistical treatment and computer analysis of experimental data obtained from faculty and student research activities.

**THE EDUCATIONAL DEVELOPMENT CENTER.** Cooperatively established and maintained by Cheyney State College, West Chester State College and the Pennsylvania Department of Education, this is one of a network of centers throughout the Commonwealth in which applied research findings are used to develop innovative products and programs to improve the educational process.

This facility carries a primary responsibility for Pennsylvania's effort to improve Urban and Bilingual Education. It is involved in the coordination and evaluation of a statewide Urban Elementary School Network and the Pennsylvania portion of an Interstate Urban Elementary School Network also embracing schools in New York and New Jersey. Its activities include services designed to (1) identify curriculum needs, (2) improve existing education programs, (3) design innovative pilot and exemplary programs, (4) assist in

grants to support these projects and (5) disseminate new and developing programs and concepts.

The Educational Development Center is Pennsylvania's unique and creative means of liaison among state, college and community educational and education-related agencies and institutions.

## **CONTINUING EDUCATION**

A number of college activities have been designed to meet the needs of people beyond compulsory school age who are not full-time students. Such persons enroll for a variety of reasons (civic, cultural, professional, occupational, social, etc.). Their educational activities are normally administered through channels other than those designed for regular degree programs students, however, the work they take may be creditable toward a degree.

West Chester's Continuing Education Program operates under the guidance of a college-wide committee for In-Service and Continuing Education, which functions under the aegis of the Vice President for Academic Affairs. It is an operation of the Educational Development Center.

Current programs include (1) in-service courses carrying graduate credit and/or in-service credit, (2) undergraduate credit courses, and (3) non-college credit work accomplished in terms of a Continuing Education Unit (CEU) which is at the ratio of one CEU for each ten (1) contract hours.

Participants represent a wide range of age and economic status including recent high school graduates who cannot attend college full time, older students contemplating a return to college or enrollment for the first time, employed individuals looking for advancement or a change in career and many who merely wish to broaden their horizons through study.

## **OVERSEAS STUDY**

The Junior Year Abroad Program, sponsored by the College, makes it possible for interested students to spend one or more semesters in France. Those interested in the French language pursue two semesters at the University of Montpellier. Students with interests in other areas of French life and culture may develop, with their departments, independent study programs or projects which can be facilitated by the West Chester faculty member in residence in Montpellier. See "Department of Foreign Languages" for details. The Consortium of Pennsylvania State Colleges sponsors an annual summer studies program, conducted in English, in Salzburg, Austria. Periodically, several of the Schools offer field-study courses which take place in Europe or other overseas locations.

### **NATIONAL STUDENT EXCHANGE PROGRAM**

West Chester is one of the 33 American colleges and universities, ranging from the University of Hawaii at Manoa to the Universities of Maine and Massachusetts, which participate in the National Student Exchange program. The project gives students an opportunity to widen their cultural and academic horizons through a semester or year of study in another part of the United States, without paying out-of-state fees or incurring such complications as credit transfers. The exchange must take place during sophomore or junior years so that returning students may share their experiences with students at their home campus. The yearly number of West Chester students who may participate in the program is limited, and in order to qualify, students must have a 2.5 cumulative index. Recruitment generally takes place in November with announcement made on campus.

### **SPEECH AND HEARING CLINIC**

The clinic, located on the second floor of Wayne Hall, provides diagnostic and therapeutic services for persons with speech and hearing problems. These services are available to College students, the College community, and residents of West Chester and the surrounding area. The clinic is maintained as a teaching-training facility for the degree program in the Department of Speech Pathology and Audiology.

### **CULTURAL AFFAIRS**

West Chester's unusually strong cultural affairs program is described under Student Life.

### **HIGHER EDUCATION OPPORTUNITY PROGRAM**

Along with colleges throughout the nation, West Chester in the 60's faced its responsibilities toward a special kind of student on the American scene: the young people from ethnic and lower-income groups, with differing cultural backgrounds, whose educational experiences and opportunities have suffered as a result of neglects and inequalities within our society.

West Chester's answer was its Higher Education Opportunity Program, which accepts students who would either not qualify for regular admissions or could not attend college without financial aid. In eight years, the program has demonstrated that these young people can succeed academically under the impetus of a specifically designed entry program.

Facets of the program include academic preparation during a nine-week summer program, continued tutorial assistance and counseling support, and generally more individualized attention

to the social and cultural needs of participating students.

The program has grown steadily, both in enrollment and in the scholastic achievement of its students. Those with a relatively good academic background in specific subject areas may now enroll in summer courses and earn up to nine credits. Others engage in supportive remedial programs designed according to individual needs. Additional information may be obtained from the Higher Education Opportunity Program Office, Administration Building.

### ART COLLECTIONS

The College's Permanent Art Collection is made up primarily of gifts from interested art patrons, Senior Class purchases, and gifts from the alumni. A different selection from the collection is placed on view each year in the galleries in Lloyd C. Mitchell Hall. The Intracollegiate Governmental Association Permanent Art Collection also has a growing collection of art works which are on display at various times in both Mitchell Hall and the Francis Harvey Green Library. The IGA Collection consists of a number of important works such as the water color, "Andress Place," by Andrew Wyeth.

### **HISTORICAL PROPERTIES**

Among a number of historical properties which came to the College as heritages from the Chester County Athenaeum, a literary society of the early 19th century, are letters to Anthony Wayne from George Washington, Israel Putnam, Benedict Arnold, and others. The College also possesses a mahogany clock which belonged to Benjamin Franklin and Anthony Wayne's telescope. Both were acquired from the West Chester Academy, forerunner to the present College.

### **DARLINGTON HERBARIUM**

The Darlington Herbarium, housed in Schmucker Science Center, is one of the highly regarded historical collections of dried plant specimens in the East. Among the 30,000 specimens are plants collected by such famous explorers and botanists as Captain John Fremont, Thomas Nuttall, Sir William Hooker, C. S. Rafinesque, and George Engelmann. More than 200 collectors from America's formative years of 1820 to 1850 are represented. The herbarium was the work of Dr. William Darlington (1782-1863), a member of the West Chester Cabinet of Science. Dr. Darlington was eminent in West Chester as a physician, educator, banker, businessman, historian, and botanist. His plants, however, were his first love. A state park has been established in northern California to preserve a rare species of insectivorous plant named in his honor—*Darlingtonia*.

### **ROBERT B. GORDON NATURAL AREA FOR ENVIRONMENTAL STUDIES**

The College has conserved a large area of natural woodlands, located on South Campus, and utilizes it for several kinds of outdoor studies in the natural sciences. Dedicated in 1973, the area was named for Robert B. Gordon, chairman of the College's Department of Science from 1938 to 1963.

### **MARINE SCIENCE CONSORTIUM**

As a charter member of the Marine Science Consortium, West Chester, along with 17 other colleges and universities, provides opportunities for field studies in marine sciences at Lewes, Delaware, and Wallops Island, Virginia. Undergraduate and graduate courses are given each summer in five three-week sessions. The Consortium offers courses in navigation, scuba diving, geology,

biology, chemistry, and physics as well as cruises on two ocean-going vessels. Coastal Navigation, Marine Ecology, and Marine Geophysics are examples of recent offerings. During fall and spring semesters field trips to the stations are taken by classes in biology and earth sciences. For more information, consult either the Department of Biology or Department of Earth Sciences.

**GRADUATE STUDIES**

West Chester's graduate program, introduced in 1959, has expanded rapidly and now offers study leading to the Master of Education in 16 disciplines, the Master of Arts and Master of Science in a number of fields, and the Master of Music. West Chester schedules its graduate studies during the fall and spring semesters in the late afternoon, evening, and Saturday morning. It is possible to pursue full-time graduate programs during the academic year and in Summer Sessions.

The following graduate programs are offered:

# Admission to West Chester

**W**est Chester State College evaluates its applicants on the basis of scholarship, character and potential for achievement in the programs to which they apply. The school operates on a rolling admissions policy so that applications are reviewed as received and applicants can be notified as quickly as possible of their status. Qualified students of any age as well as faculty and staff are welcomed at West Chester from all racial, religious, ethnic and socio-economic backgrounds. Studies may be pursued on a full or part-time basis.

## GENERAL REQUIREMENTS FOR ADMISSION

1. Graduation, with satisfactory scholarship, from an approved secondary school, or approval by the Credentials Evaluation Division of the Pennsylvania Department of Education.
2. Either a satisfactory score on the Scholastic Aptitude Test (SAT) of the College Entrance Examination Board (C.E.E.B.) or satisfactory scores on the tests given in the American College Testing Program (ACT).
3. An interview or admissions conference, for which the Office of Admissions will initiate arrangements at the proper time.

## HOW AND WHEN TO APPLY FOR ADMISSION

For application forms and instructions, send the request form at the back of this catalogue to the Director of Admissions.

Applicants for a fall semester are urged to begin the application procedure immediately after their junior year of secondary school. Facilities permitting, the Director of Admissions will accept applications into the spring of the year in which admission is desired.

Applicants for a *spring semester* should submit the request form by November 1. They must take their SAT or ACT no later than July 31.

Applicants for the nursing program are admitted only for the fall semester.

## 16/admission

*Last Day for Admission of New Freshmen.* Completed application procedures must be in the Office of Admissions by July 1 for a fall semester or December 1 for a spring semester. If enrollment quotas are filled before these dates, admissions will be closed.

*Notice of Decisions.* Candidates will hear from the Director of Admissions as soon as possible after decisions are reached. The applicants' secondary schools will also be notified.

### EXAMINATIONS REQUIRED FOR PLACEMENT PURPOSES

For placement purposes, all applicants must furnish at least one achievement test score. If ACT scores are submitted for admission they will, in many instances, also serve to provide the required achievement test score. However, *all* applicants who take the SAT for admission must submit scores on the C.E.E.B. English Composition Achievement Test and, in some cases, on one or two additional achievement tests.

*Applicants who submit ACT scores for admission.* The ACT, covering the fields of English, mathematics, natural science, and social science, produces all needed achievement test scores except in foreign languages. A test in foreign languages is therefore administered at West Chester by its Department of Foreign Languages. This test must be taken by:

1. Secondary education applicants who will major in foreign languages (provided they have studied a foreign language).
2. Applicants for all liberal arts programs (including music) which lead to the B.A. or the B.S. in chemistry (provided they have studied a foreign language).

These applicants must arrange to take the test by communicating with the Department of Foreign Languages for dates and details.

*Applicants who submit the SAT score for admission.* Although a second achievement test of the applicant's choice is strongly urged, the C.E.E.B. English Composition Achievement Test is the only placement test requirement in the following programs:

Business Administration	Music Education
Criminal Justice	Music (B.Mus. Program)
Elementary Education	Speech Pathology and Audiology
Health Education	B.S. in Nursing
Health and Physical Education	Public Health

In addition to the English Composition Achievement Test *applicants in secondary education* may submit scores for the achievement test in their major (concentration). If the major is English and the applicant has studied a foreign language, he may also submit achievement test scores in that language.

In addition to the English Composition Achievement Test, *appli-*

*cants for all liberal arts programs* (B.A. programs including music and the B.S. in chemistry) may submit scores for the achievement test in their major and in their foreign language, provided they have studied one.

All achievement test scores must reach the Office of Admissions no later than June 1.

### **ARRANGING FOR TESTS**

Information about C.E.E.B. or ACT may be obtained from guidance counselors or the Office of Admissions.

### **POLICY FOR DEFICIENT SCORES**

Students whose scores are low on either the English Composition Achievement Test or the English section of the ACT tests are required to take a remedial English course.

### **ADMISSION REQUIREMENTS IN SPECIFIC FIELDS**

*Health and Physical Education and Health Education.* See School of Health and Physical Education for additional admissions requirements.

*Mathematics.* Mathematics majors must present three secondary units of mathematics, including algebra and plane geometry.

*Music.* See School of Music for additional admissions requirements.

*Nursing.* See Department of Nursing.

### **PHYSICAL EXAMINATION REQUIREMENTS**

Except for the health and physical education programs, applicants are not asked to submit a health reference until they have been accepted for admission. Upon acceptance, they will receive a form for the necessary health examination. If the report indicates deficiencies which would handicap performance in certain professions, the College will give the student opportunity to select a field of study more appropriate to his state of health. But if the medical report shows that the student will not be able to meet the demands of any College program, admission will be revoked, and the acceptance fee of \$75 refunded.

*Health and physical education majors.* A satisfactory medical report is required for admission to the health education and health and physical education programs. The necessary form will be supplied by the School of Health and Physical Education prior to its pre-admission interview.

## **POLICY ON EARLY ADMISSIONS**

In exceptional circumstances, students with superior academic qualifications and unusually mature personal development are admitted as freshmen upon completing their junior year of secondary school. Students who, in the opinion of their guidance counselor, warrant consideration for early admission may obtain more information from the Director of Admissions. The closing date for application is June 1.

## **ACCEPTANCE OF AN OFFER OF ADMISSION**

Each applicant who accepts an offer of admission to the College must sign an acceptance form which includes the following statement: "I hereby submit myself to the jurisdiction of the College and agree to be governed by the rules and regulations of the College now existing or to be adopted during the period in which I am enrolled as a student."

## **TRANSFER STUDENTS**

Students previously enrolled, no matter how briefly, in another school of collegiate rank are classified as *transfer students*. Students whose cumulative grade-point average is less than 2.00 will not be considered for admission.

All application procedures must be completed and in the Office of Admissions by July 1 for a fall semester or December 1 for a spring semester. If enrollment limits become filled before these dates, admissions will be closed.

## **APPLICATION PROCEDURE FOR STUDENTS TRANSFERRING FROM AN ACCREDITED INSTITUTION**

1. File a transfer application form, available from the Office of Admissions.
2. See that the Director of Admissions receives:
  - a. Two official transcripts of records from all institutions attended, with honorable dismissal shown. If preliminary (incomplete) transcripts are submitted, the student must see that completed transcripts are filed later.
  - b. A letter of recommendation from the Dean of Students of the last college attended full-time, attesting that the student's citizenship record was entirely satisfactory.
  - c. A letter from the applicant stating why he wishes to transfer to West Chester.
  - d. Mid-term grades, if the student is enrolled elsewhere in the fall semester and applying to West Chester for the following spring semester.
3. If a student has completed less than 30 semester hours of credit he must supply a SAT score or ACT scores.

Upon acceptance, transfer students are given a health report form which must be completed. Admission is contingent, finally, upon a satisfactory health reference.

For administrative purposes, transfer students are classified as *commuting students*. (See Student Services)

Transfer students should also note the paragraph titled "Maintenance of Minimum Standards" in Academic Information.

## COLLEGE POLICIES FOR STUDENTS TRANSFERRING FROM A NON-ACCREDITED INSTITUTION

Applicants from collegiate institutions (including community colleges and junior colleges) which are *not accredited* by one of the six Regional Associations in the United States will be considered for admission under the following regulations:

1. An applicant's cumulative index must be 2.00 (C) or better and, in the cases of community and junior colleges, must meet their recommended mark for transfer.
2. The evaluation of *academic* courses listed on transcripts from an institution not accredited by one of the six Regional Associations will be made in accordance with the recommendations of the American Association of Collegiate Registrars and Admissions Officers in their *Report of Credit Given by Educational Institutions*. Thus, if the *Report* recommends that an institution's credits be recognized for transfer, West Chester will accept them for equivalent courses, dependent on approval from the student's major department.
3. The evaluation of courses applying to the special areas of health and physical education and music will be made by the respective Schools in accordance with their policies as follows:
  - a. *Health and Physical Education*. Under the provisions of the national professional association, all colleges offering health, physical education, and recreation have reciprocal transfer relationships. Thus, a student wishing to transfer in health and physical education will receive transfer credits in the major field in terms of major courses satisfactorily passed (C or better) at a college accredited by the National Council for Accreditation of Teacher Education and the American Association for Health, Physical Education, and Recreation. Academic courses will be evaluated as stated in 2, above.
  - b. *Music*. Credit will be allowed only on the basis of music tests for music courses. Academic courses will be evaluated as stated in 2, above.
4. Applicants must submit SAT or ACT scores which meet the minimum established by the College for the curriculum concerned.

*Application procedure:* Follow procedure outlined above under "Application Procedure for Students Transferring from an Accredited Institution" except for its last item (3). Students applying from non-accredited institutions are uniformly required to submit SAT or ACT scores regardless of semester hours completed in other institutions.

## **ADMISSION OF COLLEGE GRADUATES SEEKING CERTIFICATION**

College graduates who wish to obtain teaching certification should consult with the Dean of the School of Education.

## **READMISSION OF FORMER STUDENTS**

Students who have withdrawn from West Chester for acceptable reasons may ask the Office of Admissions for an application for readmission. Those who have attended any institutions of higher learning since leaving West Chester must request those institutions to forward transcripts of their records to the Office of Admissions.

Students intending to enroll in student teaching in the first semester of readmission must file an application for student teaching with the Director of Student Teaching at least four months before their expected readmission.

All readmission applications must be filed not later than June 1 for the fall semester or December 1 for the spring semester. If enrollment quotas become filled before these dates, admissions will be closed.

The room reservation fee must be paid on the day of application by check or money order drawn to the "Commonwealth of Pennsylvania."

### FINANCIAL OBLIGATIONS

The acceptance fee must also be paid by cashier's check or money order.

### **DAMAGE FEE**

Students are held responsible for damage, breakage, loss, or delayed return of College property and will be charged for any damage other than that occurring from normal use or deterioration. # Student Affairs

## Student Services

### CLASSIFICATION OF STUDENTS

**A**lthough the majority of West Chester's undergraduates live on the campus, many commute to the College. For administrative purposes, the College classifies its students as:

(1) RESIDENT STUDENTS

These students live in residence halls owned and operated by the College and are required to take meals in the dining hall.

(2) COMMUTING STUDENTS

This classification covers students who travel or commute to and from their legal residence as well as students who live away from the homes of their parents or legal guardians but not in a house supervised by the College or subject to College rules and regulations.

### HOUSING

The residence halls on the campus provide accommodations for approximately 3,100 students.

Newly admitted students will not be guaranteed housing for their full four years unless adequate housing in the residence halls is available.

*Room Assignments.* The Office of Student Development makes the room assignments for all students living in the residence halls. Student rooms have basic furnishings for comfortable living and the students may make them more homelike with their own accessory additions. During Freshman Orientation, students are informed about the services and equipment furnished by the College and those necessities which the student must supply for himself. Lounge and recreation areas, storage rooms, television, and a variety of other facilities add convenience and a pleasant setting for student life.

## 34/student services

*Freshman Students.* All freshmen—both men and women—who have been accepted as resident students have the opportunity to live in the College residence halls.

*Transfer Students.* For administrative purposes, transfer students are admitted as *commuting students*. Transfer students who desire accommodations in residence halls may apply in the Housing Office to be placed on the waiting list. Priority is based on the date the name is placed on the waiting list.

*Married Students.* The College has no housing facilities for married students. Prior to registration, they will need to secure their accommodations. Area realtors and newspapers should be consulted.

*Overnight Guests.* If accommodations are available, a resident student may have an overnight guest on Fridays or Saturdays at a minimal charge. Prior approval and registration must be secured from the Resident Director.

*Policy for Withdrawals.* Resident students must vacate their residence hall within 24 hours of completing the withdrawal form in the Enrollment Center.

### DINING ACCOMMODATIONS

Dining accommodations are provided in Lawrence Center, where all resident students take their meals. Commuting students may eat meals in the College dining room on a semester basis or may obtain meals at the transient rates. Three meals are served, cafeteria style, every day of the week. Menus are carefully planned to meet the nutritional needs of active students.

The dining hall staff is not equipped to meet the special needs of students whose health requires medically regulated diets. Special problems should be taken to the Coordinator of Food Services at least two weeks in advance of each semester.

Students who do not have a semester contract for meals may not eat in the dining hall unless they pay the transient fee for an individual meal. If this regulation is violated one or more times, the student will be held responsible for payment of the full semester charge for meals in the dining hall.

### FRESHMAN ORIENTATION PROGRAM

Freshman Orientation is a mandatory, three-day summer program which introduces all incoming freshmen to the College. Administered by the Office of Student Development through the Director of Orientation, the program includes placement testing, counseling, human awareness sessions, academic advisement, social and recreational activities, and opportunities to become acquainted with college facilities and services. Participating freshmen are housed in residence halls and take their meals in the dining hall. Within limits of early response and available space, admitted freshmen may schedule for the most convenient of several orientation periods. Advance notice of the program is sent to all incoming freshmen.

### COLLEGE HEALTH SERVICE

To meet emergency and first-aid needs, and to perform routine infirmary treatment of minor illnesses and minor surgical conditions, two part-time physicians and five registered nurses are available, at no cost to the students. A four-bed ward is available for short-term observation or treatment at the discretion of the College physicians. The Health Service is in Reynolds Hall where, for emergencies, a nurse is on duty on a 24-hour basis while College is in session. Beyond these services, the College does not furnish medical care nor bear the costs of medical or surgical treatment or hospitalization. The community of West Chester has qualified physicians and excellent hospital facilities.

### INSURANCE PROGRAM

In order to ease the financial burden which could result from extended illness or serious injury, a voluntary student insurance program, approved by the College, is available to all full-time students. The College *requires* all students in health and physical education, all students participating in the intercollegiate athletic program, and all students who are members of a club of an athletic nature to purchase the minimum coverage or show proof of comparable coverage.

Information about the insurance program is mailed to students prior to registration or may be obtained from the College Health Service.

*Liability Insurance Requirement for Students in Nursing.* See Department of Nursing.

## STUDENT PHYSICAL EXAMINATIONS

In addition to the physical examination required for entering students, a completed physical examination form must be submitted annually to the College Health Service by all students participating in the intercollegiate athletic program.

A current physical examination including a report of a negative tuberculin test or chest X-ray showing no active tuberculosis is mandated by the Pennsylvania Department of Education for all senior student teachers and all junior or sophomore students participating in a field experience in the public schools.

The College Health Service reserves the right to request an annual physical examination by the family physician for any student suffering from a chronic illness. The College may deny admission to, or later dismiss, any student whose health would be detrimental to other College students.

The physical examination form is available at the College Infirmary.

*Physical Examination Requirement for Students in Nursing.* See Department of Nursing.

# Student Life

It is a conviction at West Chester that education is both an academic and a social process, and that the student community is not merely a housing adjunct but an intrinsic part of the college experience.

The Administration holds that students should share the responsibility in governing this community and should have a voice in the shaping and reexamining the objectives of the College.

West Chester students have a democratically constructed governing body for maintaining a mature and responsible student citizenry and for developing the various activities and programs which best serve their interests and needs. Through advisory and committee machinery, the Administration, the faculty, and the student body seek to work together in behalf of the general welfare of the College.

## **THE INTRACOLLEGIATE GOVERNMENTAL ASSOCIATION**

All students, upon payment of their student government fee, are members of the Intracollegiate Governmental Association, which is the student governing body concerning itself with the welfare of all students. Under its constitution, the IGA provides students with experiences in the processes of democratic government.

The elected General Assembly is the IGA's legislative body; the IGA program is administered through its officers and a student committee system. In fiscal matters, in various policy-making areas, and in disciplinary action, final authority rests with the President of the College and the Board of Trustees.

Under guidance from the Vice President for Student Affairs, the IGA maintains the College Bookstore, publishes the student newspaper, operates the College radio station, conducts ticket sales for College events, and plans and conducts many all-campus special events and programs.

### **RESIDENCE HALL ASSOCIATION**

The purpose of the Residence Hall Association is to provide for the social, cultural, and educational life of resident students. It purchases and maintains recreational equipment, provides social events, and gives the Student Development Staff information regarding visitation hours, living conditions, and regulations in the residence halls. Its varied activities stem from representation and participation within the residence halls. Each hall has a representative from every floor and a slate of dormitory officers. The President and Vice President from every residence hall represent their respective halls in the Residence Hall Association General Assembly.

### **COMMUTER GOVERNMENT**

Commuter Government is the official campus governmental organization, representing all commuting students. Commuter Government acts on behalf of its members in the areas of political and social life, and services to the commuter on campus.

### **STUDENT STANDARDS**

West Chester State College assumes that its students are mature persons who are attending an institution of higher learning for serious purposes. Therefore, the College believes that students should accept responsibility for their personal behavior. In situations that deviate from these ideals, West Chester State College's Judiciary System is designed to hear complaints against individual students and groups of students whose behavior or activities are variously labeled unacceptable, destructive, irresponsible, disorderly, or in violation of existing standards of conduct and regulations.

In encouraging the development of responsible student conduct, the College employs counseling, guidance, admonition, and example, as well as disciplinary proceedings. Students found in violation of the College's rules and regulations may be subject to disciplinary action, which could include suspension.

### **ORGANIZATIONS AND ACTIVITIES**

West Chester has an extensive program of extra- and co-curricular activities under the direction of the Vice President for Student Affairs. Alumni Day is held annually at the College during Commencement Weekend, and the Association publishes a quarterly magazine, *The Olden Ram*, to keep members informed of college concerns.

# Academic Information

**U**nder West Chester's advisory program, all students have faculty advisors appointed through their major departments who counsel them on academic matters throughout their undergraduate years. Students, however, are responsible for seeing that they meet all graduation requirements.

## CLASSIFICATION BY COLLEGE PROGRAM

*Degree Candidate*—all undergraduates admitted to a degree program.

*Non-degree Student*—special students admitted for course work toward certification, professional growth, or other purposes.

## ACADEMIC CLASSIFICATION OF STUDENTS

The student's class designation is determined by the number of semester hours of credit *earned*, thus:

<i>Freshman</i>	0-31 semester hours of credit (inclusive)
<i>Sophomore</i>	32-63 s.h. of credit (inclusive)
<i>Junior</i>	64-95 s.h. of credit (inclusive)
<i>Senior</i>	96 or more s.h. of credit

Note: In computing the cumulative index, the total number of credits *attempted* is considered. (See "Cumulative Index" below.)

## STUDENT CLASS LOAD

A full-time class load ranges from 12 to 18 s.h. of credit.

## STUDENT ABSENCE POLICY

The student absence policy is a graduated policy providing leniency to students (primarily juniors and seniors) enrolled in 300 and 400 courses, and certain restrictions to freshmen and sophomores in 100 and 200 courses. The privilege given to upperclassmen, regardless of course level, is based upon their demonstrated ability to assume responsibility.

The absence policy holds that satisfactory proficiency in course work is the student's responsibility, as is class attendance. Course grades should reflect satisfactory comprehension of the course

## 50/academic information

materials, not the attendance record.

The policy is administered at the student-faculty level. Only when a faculty member reports a course drop does the College learn of a poor attendance record.

Absences from 300 and 400 courses have no specified restriction. For 100 and 200 courses, freshmen and sophomores are allowed a total of absences equal to three times the semester credits. On days of an announced quiz, test, or examination, *no absences are permitted at any course level*. Excess absences in 100 or 200 courses may cause a freshman or sophomore to be dropped from the course and to incur either a WP or WF. Before an instructor institutes such drops, he discusses the matter with his department chairman and informs the student of his intention.

## GRADE REPORTS

After each semester, the Director of Scheduling and Academic Records mails a report of each student's semester grades to the student at the home address.

## GRADING SYSTEM

<i>Grade</i>	<i>Interpretation</i>	<i>Percentage Equivalents</i>	<i>Quality Points</i>
A	Excellent	A—90-100	4
B	Superior	B—80-89	3
C	Average	C—70-79	2
D	Below Average	D—60-69	1
F	Failure	F—59 or lower	0
P	Passing		
I	Incomplete		
WF	Withdrew Failing	F—59 or lower	0
WP	Withdrew Passing		
AU	Audit		

I (Incomplete): given when a student fails to complete course requirements by the end of a semester for such valid reasons as serious illness or death in the family. Unless the work is satisfactorily completed within the first nine weeks of the next semester, the I becomes an F.

## CUMULATIVE INDEX

The cumulative scholastic index (academic average) is determined by dividing the total quality points *earned* by the total credit hours *attempted*. The following example, based on a single semester, illustrates:

	Semester Hours	Grade	Quality Points for Grade		Quality Points for Course
1st subject	4	A	4	4 x 4 =	16
2nd subject	3	B	3	3 x 3 =	9
3rd subject	3	C	2	2 x 3 =	6
4th subject	3	D	1	1 x 3 =	3
5th subject	2	F	0	0 x 2 =	0
	—				—
	15				34

34 divided by 15 equals Scholastic Index 2.27

All grades received during a student's enrollment (except D's or F's when a second attempt produces a higher course grade) are included in the cumulative index. Grades from other colleges are excluded.

If a student repeats a course, in an effort to improve his D or F grade, he must notify the Enrollment Center at the beginning of the semester in which he is taking the course again.

### PASS-FAIL POLICY

1. All sophomores, juniors and seniors with a cumulative index of at least 2.00 are eligible.
2. The Pass-Fail privilege is limited to one course per registration; as a rule, only a non-major elective may be taken on a Pass-Fail basis.
3. After contracting for Pass-Fail, the student may not request a letter grade.
4. A form for a Pass-Fail agreement may be obtained from the Student Enrollment Center. It must be completed and returned no later than one week after the beginning of a semester or summer session.
5. A grade of Pass carries credit value but has no effect on the cumulative index.
6. A grade of Fail is computed into the cumulative index.

### EXEMPTION FROM FINAL EXAMINATIONS

Subject to certain reservations, a student may waive a final examination if he has attained an A or B prior to the final, has completed all other course requirements, and has instructor permission. The reservations are:

1. Any unit examinations given during the final examination period are not subject to this policy.
2. Academic departments as well as faculty may adopt a policy excluding the final examination exemption for certain courses.
3. Mutual agreement between the instructor and the student to waive the final ex-

## 52/academic information

amination should be determined during the week prior to the beginning of the examination period.

The course grade will be the A or B earned exclusive of a final examination grade.

### ACADEMIC HONORS LIST

The academic Honors List of those students achieving a cumulative index of 3.50-4.00 is published at the close of each semester.

### MAINTENANCE OF MINIMUM STANDARDS

A 2.00 (C) cumulative index is the minimum acceptable for academic work; students failing to maintain a 2.00 index are considered probationary students.

In order to remain in the College as degree candidates, students must attain the following cumulative indexes.

With 0 to 32 credits attempted or two full-time semesters completed	1.80
After 33 credits attempted or four full-time semesters completed	2.00

A minimum cumulative index of 2.00 (C) for all work taken at the College is required for Senior Standing and graduation.

If a student's cumulative index is below 1.00 (D) after attending two full-time semesters and the summer sessions, his attendance is terminated.

### MINIMUM STANDARDS—TRANSFER STUDENTS

Transfer students are required to maintain the cumulative indexes shown above. The number of credits taken at West Chester is added to the number of credits transferred for the purpose of determining the credit hours attempted. For example, 34 credits transferred and 32 credits at the College equal 66 credits and require a minimum average of 2.00.

### REPEATING COURSES

In a change of academic policy applying to students who were admitted or readmitted after June 1, 1973, D or F grades are not computed into the index when a student repeats the course and attains a better grade. If the second attempt does not produce a grade higher than D or F, the grade will be computed into the index and remain there even if a third attempt is successful. Whatever the outcome of second and subsequent attempts, the original D or F will appear on the student's record.

Students must inform the Enrollment Center that they are repeating a course, and must do so as the semester of the second or subsequent attempt begins.

For students admitted before June 1, 1973, the original D or F will be figured into the index.

### **ADVANCED PLACEMENT PROGRAM**

Courses taken under the Advanced Placement Program offered by the College Entrance Examination Board may be applied toward advanced placement in the College and/or toward credit requirements for graduation. The College recognizes the grade of 3.00 or above as acceptable.

### **INDEPENDENT STUDY AND CREDIT BY EXAMINATION**

Enrolled students desiring approval for independent study or credit by examination must apply on forms available from the Enrollment Center. The privilege of independent study or credit by examination is subject to:

1. Application within the first two weeks of a semester.
2. A cumulative index of at least 2.00 in the major area.
3. Evidence of a satisfactory academic background for the course.
4. Approval, written on the application form, from the Dean or department chairman concerned.
5. For part-time students only: payment of the basic fee for the course.

The grade received will be recorded on the student's permanent record and credited toward graduation requirements.

### **TRANSFER OF CREDIT**

Advanced credit may be granted for equivalent courses completed in *accredited* institutions of collegiate grade.

Effective for students who entered the College after September 1973, D grades are accepted for transfer if the credit is for equivalent courses within the framework of General Requirements or free electives, provided the transferred course does not satisfy a major field requirement as well.

D grades considered for transfer for a major program requirement are treated in the same manner as the major department treats D grades earned at West Chester, that is, the student's major department may require the course to be repeated.

If the student is required to repeat a course in which a D was obtained, the course originally considered for transfer will not be accepted for any type of credit. Likewise, if a student changes his major, D grades originally approved for transfer will be re-evaluated by the new major department.

### **AUDITING PRIVILEGES**

Anyone may attend the College for the sole purpose of auditing one or more courses by obtaining approval from the Enrollment Center and paying the regular fee. Full-time students have the privilege of auditing one course per semester without charge, pro-

## 54/academic information

vided they obtain approval from the course instructor. Part-time students may audit one course per semester, provided they obtain the instructor's approval, enroll in the course through the Student Enrollment Center, and pay the regular course fee.

Credit is never given to auditors, and audited courses do not appear on student records. After the course has commenced, the auditor status may not be changed.

### **POLICY ON CORRESPONDENCE COURSES**

The College does not allow credit for courses taken through correspondence.

### **WITHDRAWAL FROM A COURSE**

- A. *During the first six weeks of a semester* a student may withdraw from a course, thereby receiving no grade.
- B. *After the first six weeks of a semester* a withdrawal will not be approved except for special reasons and emergencies. The student secures a withdrawal form from the department involved, has it signed by the instructor and department chairman, and returns it to the Enrollment Center.

If a student is doing passing work at the time of approved withdrawal, he receives a WP, which is not treated as a grade. If he is failing, he receives a WF, computed as an F.

A student who drops a course without official permission is given an F.

### **WITHDRAWAL FROM THE COLLEGE**

Students wishing to withdraw from the College are to go to the Enrollment Center and follow the prescribed procedures. If illness or some other emergency causes him to give up his College work, a student must notify the Enrollment Center at once. Unless a student withdraws officially, F grades will be recorded for unfinished courses.

### **REINSTATEMENT AND READMISSION**

A student whose cumulative index is below that required for retention may attend summer sessions at West Chester in order to improve his index. If the deficiency is corrected during the summer, the student is reinstated and continues his degree candidacy. If, however, he does not attain the required cumulative index by the close of summer sessions, his candidacy is terminated. He must remain away from West Chester for one full semester before taking part-time work in an effort to be readmitted.

All students must apply formally for readmission as full-time candidates; however, no application is necessary, other than proper

registration, for part-time work taken to qualify.

Students are eligible for readmission if they qualify through part-time work taken after the first dismissal. A second academic dismissal terminates degree candidacy at West Chester.

### **ROOM RESERVATION POLICY FOR REINSTATED STUDENTS**

Room reservations are not held for resident students who are in academic difficulty at the close of the spring semester. If students attend summer sessions and are reinstated for the following fall semester, they must reapply for housing.

### **REQUIREMENTS FOR GRADUATION**

A student is recommended for graduation upon the satisfactory completion of a minimum of 128 semester hours and upon fulfillment of all categories of the requirements for his degree. A minimum cumulative index of 2.00 (C) is required for graduation. Degree requirements are detailed under the heading of the subject field. See also "Requirements for the Baccalaureate Degree" under the Programs of Study.

### **RESIDENT CREDIT REQUIREMENT**

To qualify for graduation, a student must take at least 30 semester hours of credit at West Chester.

### **REQUIRED NOTICE OF INTENTION TO GRADUATE**

Students intending to graduate in May or August must come to the Enrollment Center and give Notice of Intention to Graduate no later than February 1. Students intending to graduate in December must give such notice no later than October 1. The baccalaureate degree will not be granted unless this requirement is met.

When the student submits this Notice he will receive a cap-and-gown order form and his bill for the graduation fee. He will also specify how he wishes his name shown on the diploma and Commencement program. Unless he meets the deadline, it will be impossible for the College to order his diploma or place his name on the forthcoming Commencement program.

### **GRADUATION HONORS**

Graduation honors are awarded as follows:

	Cumulative Index
<i>cum laude</i>	3.25—3.49
<i>magna cum laude</i>	3.50—3.74
<i>summa cum laude</i>	3.75—4.00

## **56/academic information**

The honors list for Commencement is necessarily calculated at the close of the seventh semester. Those who do not attain honors distinctions until the end of their final semester will have recognition of their achievement on their transcripts, where all honors distinctions are recorded.

To be eligible for honors distinctions, transfer students must have completed a minimum of 64 semester hours, of four full-time semesters, at West Chester.

### **TRANSCRIPTS**

Requests for official transcripts are made by writing to the Enrollment Center, Administration Bldg. West Chester graduates are not charged for their first transcript but pay \$1 each for subsequent transcripts. Checks, payable to the Commonwealth of Pennsylvania, must accompany all but the first request. Transcripts are official only when sent directly from the issuing institution to the authority requiring them.

### **VETERANS' AFFAIRS**

Under the provisions of Title 38, West Chester State College is an accredited college for the education of veterans. An Office of Veterans' Affairs is maintained in the Administration Building. The College cooperates with the Veterans Administration to see that honorably separated or discharged veterans receive every consideration consistent with either degree or non-degree admission standards.

All veterans, certain dependents of disabled or deceased veterans, and war orphans who wish to obtain educational benefits under the appropriate public laws must register with the Office of Veterans' Affairs at College registrations. Veterans must renew their registration with this Office at the beginning of each subsequent semester and each summer session. The Veterans Administration requires students who are veterans to schedule at least 12 s.h. per semester in order to receive full benefits under the G.I. bill.

A representative of the Veterans Administration is in the Veterans' Affairs Office part-time, counseling and acting as liaison between students and the Veterans' Affairs Office in financial and other matters.

The Veterans' Affairs Office also advises students on Selective Service matters.

### **ARMED SERVICES ROC PROGRAM**

The College, with the approval of the Board of Trustees, permits West Chester students enrolled in the Armed Services Reserve Officer Candidate Program (ROC) to receive six semester hours of

baccalaureate credit upon successful completion and certification of ROC military requirements. Such credits are classified as free elective transfer credits. Depending on the status of a student's program at the time of ROC credit transfer, these credits will be counted toward, or in excess of, the 128 credits required for a baccalaureate degree.

ROC programs are contingent upon successful completion of military requirements during vacation and the award of a college degree before being granted the service commission. The programs cover the Navy's Basic and Advanced Reserve Officer Candidate courses and the Marine Corps' Junior and Senior Platoon Leadership courses.

### **THE WOMEN'S CENTER**

Located on the third floor of 628 High Street across from Philips Memorial Hall, the Women's Center provides a place for West Chester's non-traditional students, in particular older women, to meet and seek advice. Staffed entirely by volunteers, the center works with the Admission Office and undergraduate administration in helping older students return to or begin college and with the day-to-day problems they face.

### **INTERNSHIPS**

A number of departments offer the opportunity for internships in which students may be employed in their field of interest receiving income, experience and college credits. Among the departments at West Chester with internship programs are American Studies, Business and Economics, Chemistry, Geography and Planning, Government and Politics, History, Psychology and Speech Communication and Theatre. Additional information is available under the various department listings and from the departments.

### **STUDENT TEACHING**

Student teaching is to be taken in the seventh or eighth semester and normally culminates the professional experience in pre-service preparation for teaching. Students are required to file applications for student teaching one year prior to their student-teaching semester. Regular meetings for student-teaching registration are scheduled annually early in the spring semester. Prospective student teachers must attend one of these meetings.

Students must do their teaching in stations in school areas where the College holds a contract for student teachers.

To be eligible for student teaching, candidates must have Senior Standing (96 semester hours), a cumulative index of 2.00 (C) or higher, should have completed all course work required in at least

the first six semesters, and should have satisfied competencies for the degree. Criteria for student teaching approval occasionally change. Students should contact departments for requirements.

### **NATIONAL TEACHER EXAMINATION**

The College provides an annual opportunity for students to take the National Teacher Examination. Details may be secured from the Career Development Center.

### **TEACHING CERTIFICATES**

*Instructional I Certificate.* A student who satisfactorily completes one of the College's teacher education curricula receives his degree from the College and qualifies for an Instructional I Certificate, which is issued to him by the Pennsylvania Department of Education.

In the elementary field this certificate qualifies the holder to teach in Pennsylvania's elementary schools for three years.

In the secondary field this certificate qualifies the holder to teach the specified subject in Pennsylvania's secondary schools for three years.

In health education, health and physical education, music education, foreign languages, and speech correction, the certificate qualifies the holder to teach the specified subject in the public schools of Pennsylvania for three years.

*Instructional II Certificate.* This certificate requires three years of successful teaching in the public schools of Pennsylvania under the Instructional I Certificate and the satisfactory completion of 24 semester hours of additional work of collegiate grade, completed after issuance of the baccalaureate degree. This certificate is a permanent license to teach in Pennsylvania.

All or part of the educational requirements for this credential may be obtained through approved in-service programs.

### **EXTENSION OF TEACHING CERTIFICATES**

1. A college certificate valid for a secondary field may be extended to include the elementary field by completing a program designed by the Department of Elementary Education.
2. A college certificate valid for the elementary field may be extended to include any subject of the secondary field by completing the College's field requirement for it and the related methods course.
3. A college certificate valid for a secondary field may be extended to include additional academic subjects by completing the College's field requirements for them.

## THE GENERAL REQUIREMENTS—COMMON TO ALL CURRICULA

West Chester State College's over-all curriculum has been substantially altered in the last few years as the result of a two-year comprehensive investigation with recommendations by committees and councils comprised of faculty, students and administrators. Aimed at determining genuine needs and realistic goals for today's students, the extensive study has resulted in a new program of General Requirements allowing more freedom of choice for the student and greater flexibility for the departments in planning their curricula.

It was felt that to insure a broad education encompassing experiences in humanities and the social and natural sciences, it would be imprudent to eliminate the General Requirements completely. At the same time, however, it became obvious that today's education must be versatile because of the many new courses and areas of study that are constantly becoming available.

As a result, the "new" General Requirements represent a decrease in required hours and specific required courses while in-

## 62/degree requirements

creasing the number of courses that may be used to fulfill a given requirement.

The "new" General Requirements apply to all students entering West Chester since June 1974. Those who entered the College prior to that date continue to follow the General Requirements that were in effect at the time of their entrance. These are given in previous issues of the Undergraduate Studies Bulletin through 1972-74 and are also available in all departments.

All students should counsel closely with their advisors. Each department has a handbook or guide outlining courses of study for the various curricula that are available. These give required courses, prerequisites and other information necessary for the successful completion of the student's degree program.

This means in effect that only the 202 (Intermediate II) language course is actually required. Hence, any student who is not qualified to take the 202 course must prepare himself by taking the elementary (101-102) and/or Intermediate I (201) courses or course or by independent study. The Department offers two degree programs, one leading to the Bachelor of Arts in anthropology-sociology and the other to the Bachelor of Arts in social work. Students pursuing the Bachelor of Arts in anthropology-sociology may elect either the anthropology, sociology or social anthropology tracks. The anthropology track focuses on man's biological evolution; the origin, development and integration of human cultures; and on the interrelationship of biological and cultural factors in the etiology of human behavior. The sociology track centers on the problem of understanding the processes involved in the creation, maintenance and evolution of social structure and on the impact of diverse structural forms on individual behavior. The social anthropology track draws from both sociology and anthropology to develop an analytic understanding of the dialectic interaction of social structure and culture.

## **SOCIAL WORK PROGRAM**

John A. Main, Program Director

### **B.A. DEGREE PROGRAM**

The B.A. degree program in social work combines the best of the liberal arts tradition with the preparation of the professionally competent social worker. The social work student develops skills in the field and growing conceptual ability in the classroom. Linked together, these abilities culminate in a field experience with professional social work responsibility. Upon graduation, the social work student should be ready to assume most direct tasks currently performed in social welfare and human service agencies. Child welfare agencies, public assistance agencies, courts, hospitals, and clinics are among the typical settings open to the graduate.

The social work program is accredited as a professional degree in social work by the Council on Social Work Education. Graduating students are entitled to the memberships and privileges accorded to a professional social worker.

In the spring of the sophomore year the application is considered by the Social Work Admissions Committee. SWo 200, taken in the fall semester of the sophomore year, is prerequisite and must be completed before the application is acted upon.

### **INSTITUTE FOR PROFESSIONAL DEVELOPMENT**

In 1972, the Social Welfare Institute for Professional Development designed for persons employed in the human services was introduced. The institute has two facets. The first is designed for workers without college preparation who wish to enhance their on-the-job skills. The second is designed for workers who have baccalaureate degrees in other areas but lack specific professional preparation for social work.

Courses related to on-the-job skills are in interviewing (SWo 250, 251), information and referral (SWo 260, 261) the communication and collaboration process (SWo 270, 271), and supervision (280, 281).

A professional social work sequence is available for students with baccalaureate preparation in other areas. These students take social work courses lacking in their previous preparation plus a supervised field practicum. Concurrent job responsibilities supply a framework for courses and practicum whenever possible. A vocational certificate carrying equivalent professional recognition is available to students completing the program.

### SOCIAL WORK FIELD PLACEMENTS

The following agencies provide field experiences and professional supervision in social work. These agencies play a most important role in the student's own growth and development.

Chester County BOARD OF Assistance	Family Service of Delaware County
Chester County Children's Services	Freedom Valley Girl Scout Council
Chester County Farms	Friends Hall at West Chester
Children's Bureau of Delaware	Hospital of the University of Pennsylvania

The undergraduate programs offered by the Department of Art give students the opportunity to achieve competence in the practice, theory and history of art taking into consideration both personal and vocational needs. Each student's advisement reflects an effort to relate the general requirements to art subjects.

In addition to the formal programs listed below, alternative courses of study may be planned in conjunction with other departments. Students are encouraged to make connections between art and

other subjects where appropriate to achieve vocational and personal advancement. Proposals for alternative programs should be made to the department after consultation with the student's advisor.

The goal of the Department of Business and Economics is to train students for careers in business, for administrative careers in non-business organizations, and for the successful operation of their own businesses.

Student must choose one of four areas of concentration offered by the Department: Accounting, Management, Marketing and Economics.

The Accounting and Marketing concentrations prepare students for careers in these specialized functions of business. The Economics concentration emphasizes the understanding of economic theory rather than career preparation. The Management concentration prepares students for a business career by instruction in the theory and practice of management, but does not prepare a student for a career in any particular business or business function.

The Department of Business and Economics is making plans for a concentration in Finance to prepare students for careers in real estate, insurance, banking, and related fields. The Department of Business and Economics cooperates with the Department of Mathematics in its program in Computer Science.

The Department of Chemistry offers five undergraduate degree programs:

- (1) The B.S. in Chemistry program enables the student to receive basic preparation required for the career of his choice. Such choices could be college and university teaching, positions as professional chemists, research work, and various services in industry and government. In all cases, the program will prepare the student for graduate study in the field of chemistry.

## 96/chemistry

- (2) The B.S. in Chemistry-Biology is an innovative interdisciplinary program operated through the cooperation of the Department of Biology. In addition to providing the core courses required for admission to schools of medicine, dentistry, and veterinary medicine, the program also enables the student to pursue a career in marine biology, biochemistry, and environmental chemistry.
- (3) The B.S. in Chemistry-Geology is the newest interdisciplinary program. The Department of Earth Sciences cooperates in its implementation; the student is prepared for a career in either chemistry, geology, or geochemistry. In addition, the student is prepared for graduate work in the burgeoning field of solid state or materials sciences.
- (4) The B.S. in Education in chemistry program prepares the student for a career in teaching chemistry in the secondary schools. The program enables the student to gain experience in the major branches of chemistry so that, with proper selection of electives, graduate work in either straight chemistry or chemical education can be pursued. Sufficient flexibility is available so that the student can also become certified in general science by electing appropriate courses.
- (5) B.S. in Clinical Chemistry—a new program which will train students interested in working in clinical laboratories. A one-semester internship in an “approved” clinical laboratory is a mandatory part of this program. This is the first such program approved in the Commonwealth of Pennsylvania.

The Department of Chemistry is accredited by the American Chemical Society, which provides its professional certification to graduates of the B.S. in Chemistry program.

### **Internship Program**

Although internships are not a mandatory part of chemistry programs, they are available to majors on a selective basis. The student receives a varying amount of credit based on the number of hours he or she spends in the work situation and on the volume of academic work necessary during the internship. The credit varies from three to 15 hours per semester. For each full workday per week, three credits per semester are allowed.

### **Pre-Professional Program**

The program consists of a rigorous course in study in the Chemistry-Biology dual major curriculum specifically designed for pre-professional students and it includes personal guidance from the beginning of the freshman year. A pre-professional committee, composed of two members from the Biology and Chemistry departments and the Dean of the School of Sciences and Mathematics, advises the students and writes all recommendations.

Because of the competition for medical school admission, planning for a medical career should be undertaken only by students who are highly motivated toward medicine and who are willing to pursue an arduous academic program in order to

qualify for medical school acceptance. Ability to pay should not deter any student from pursuing a medical or dental career. When a student of limited or no financial means is accepted at a medical or dental school, that school will almost always offer financial assistance.

An Interdisciplinary Program Administered  
under the School of Education and Given in the  
Center for Studies in Criminal Justice

In recent years the increasingly complex problem of crime in America has led to heightened recognition of the need for professional and academic preparation for careers in criminal justice. In answer to this need within its service area, the College has introduced (in 1974-75) a program leading to the Bachelor of Science in criminal justice. The program has been carefully designed to provide the particular requirements of three categories of students: 1) those who wish to undertake a four-year program of study for careers in criminal justice, 2) in-service personnel who wish to strengthen their educational background and increase their professional competence, and 3) graduates of two-year colleges who

## 102/criminal justice

wish to transfer into the final two years of the curriculum.

The program is intended to provide the competencies, understanding, and philosophy necessary for professional performance in the fields of criminal justice. Although the program is not designed to develop specialists in any one field of criminal justice, it does provide opportunity to concentrate in one of two areas through electives. The final two years of the criminal justice program are individualized and competency based, with a heavy emphasis on internships with law enforcement agencies, correctional institutions, parole officials, and in the courts.

Two programs in special education enable students to secure certification to teach the mentally retarded or the physically handi-

capped. The course sequences of the programs are extensions of existing curricula and permit students to graduate with dual certification, that is, their teaching certificates will be valid for teaching in the regular classroom and in special classes for either the mentally retarded or the physically handicapped.

The program at West Chester meets the State requirements of a minimum of 12 semester hours and is so planned that elementary students will not need to carry an overload or attend summer sessions.

Students pursuing a degree in secondary education will receive dual certification upon completion of either course sequence plus basic courses in the teaching of reading and the teaching of mathematics for the elementary grades. To attain these additional credits, secondary education students may need to attend summer sessions.

Admission to either program must be gained through screening procedures which include interviews with the special education faculty. A limited number of students from other curricula may take special education courses as electives.

**NOTE:** The special education program described here will be revised to be more comprehensive by September 1977. Contact the Coordinator of Special Education for information on the new program and the exact date of its implementation.

**Student Teaching.** In both programs, not less than four weeks nor more than nine weeks of the regular student teaching are to be allocated to a special education station.

Special education courses are scheduled to enable students to begin the program during their sophomore year. Students interested in teaching retarded or physically handicapped children should indicate their interest when planning their sophomore schedule, and are advised to see the Coordinator of Special Education.

## URBAN EDUCATION PROGRAM

F. William Leeds, Associate Professor, Coordinator

West Chester offers a special program which strengthens the preparation of teachers who wish to work in the schools of the inner cities, where the need for skilled teachers is great.

The prospective urban teacher needs both carefully planned college courses and equally well planned experience in the schools. Because of the complexity of urban civilization and the diversity of the persons and situations he deals with, the urban teacher should have a particularly rich background in both the liberal arts and professional studies.

The urban education program does not provide additional certification and does not vary essentially from the normal requirements for either the elementary or the secondary major. However, the student who undertakes the program is required to take at least half of his student teaching in the urban school. He must also take a special core of course work related to teaching in the inner city.

Elementary education majors incorporate the urban education program into their curriculum by selecting it as their area of interest. (See Areas of Concentration above.)

Secondary education majors who wish to consider this special preparation must first consult with the Coordinator of Urban Education. Unless the requirements for their field are very heavy, students are usually able to fit the urban education core into their curriculum without going beyond the 128 hours required for graduation.

## COURSE OFFERINGS IN URBAN EDUCATION

### EdU 360 The Disadvantaged Child (3)

Political science systematically investigates the theory and practice of politics and levels of government—domestic, foreign, and international. Depending on the area, emphasis may be on the philosophical study of the nature of government and politics, on the political behavior of individuals or groups, or on the role of political and governmental institutions. Careers are open to majors in research, teaching, administration, personnel work, public relations, journalism, and government at home and abroad.

The Bachelor of Arts program in political science is especially relevant for the pre-law student. The department maintains a separate advisory program for pre-law students, both majors and non-majors, and is responsible for the Law Club.

The School of Health and Physical Education at West Chester has a record of excellence and a long history; West Chester's program of coeducational physical education is one of the oldest in the United States. The first Director of Physical Training, Dr. Clyde Ehinger, was appointed in 1890.

## PROGRAMS OF STUDY

- B.S. in Health and Physical Education
- B.S. in Health Education
- B.S. in Public Health

The School of Health and Physical Education offers a dual major leading to the Bachelor of Science in Health and Physical Education and a second program leading to the Bachelor of Science in Health Education. Both programs, upon satisfactory completion, permit the student to attain the Pennsylvania Instructional I Certificate, valid for teaching the specified subject in the elementary and secondary schools of Pennsylvania for three years. In addition, the school offers a Bachelor of Science degree in Public Health.

## NON-DEGREE PROGRAMS

**Certification in Driver Education and Safe Living.** Details of this program, which includes highway as well as general safety education, are given following the degree curricula.

**Athletic Training Education Program.** In 1972 the School introduced a program, approved by the National Athletic Trainer's Association, which prepares students to become certified athletic trainers. As of 1974 West Chester is the only college offering this new opportunity toward certification in a summer program. Interestingly, the West Chester program has had an outstandingly high percentage of women participants. The training-education program is designed for both undergraduates and in-service teachers and coaches.

**Coaching Certification Program (Athletic Coaching, K - 12).** Open to undergraduates and graduates from all study fields. The Pennsylvania Department of Education now requires that coaches be certified. Those who successfully complete the program at West Chester earn a transcript and written endorsement from the School of Health and Physical Education and official certification from the P.D.E. attesting to school administrators that recipients have attained basic preparation for coaching. The program is a model for a needed broadening of coaching standards. West Chester physical education majors may take any of these courses toward their graduation requirements.

**Recreation Leadership Program.** Students who wish to prepare as recreation leaders may elect courses in recreation and take part in a special program in camp leadership during the summer.

Details of these three special programs are given following the degree curricula.

The School also services the total college enrollment by providing courses in health and physical education for all undergraduates.

## FACILITIES

Facilities to support the programs of the School have kept pace with a rapid increase in students and faculty. The new Health and Physical Education Center and field complex, located on South Campus, provide the College with one of the nation's outstanding facilities for education and research in health and physical education. Among its notable components are its research facilities, its multi-purpose teaching stations, and a one-acre gymnasium divisible into six separate pneumatically sealed gymnasiums. A vast complex of tennis courts and baseball, lacrosse, field hockey, soccer, and football fields is also located on the South Campus.

## ADMISSION

Students seeking admission to the School of Health and Physical Education must meet the basic requirements of the College (see Admission to West Chester).

**Admission to the Degree Program in Health and Physical Education.** Applicants must have participated in both physical education classes and extracurricular athletic programs in secondary school. A pre-admission interview conducted by School faculty, as well as a testing program, evaluate the candidate's promise of performance in the program.

**Admission to the Degree Programs in Health Education and Public Health.** A pre-admission interview conducted by Department of Health Education faculty members evaluates the applicant's personal qualifications for admission.

**Transfer Students**—see three items pertaining to transfer students under Admission to West Chester.

## Professional Requirements for Health and Physical Education Majors

Students in the dual major must purchase uniforms. (See "Additional Costs" in Fees/Expenses.) As a prerequisite for Senior Standing, students in the dual major must have completed the extracurricular and sports credit requirement of the Department of Physical Education.

## MEN'S INTERCOLLEGIATE ATHLETIC PROGRAM

West Chester regards athletic activities as an important part of the college experience—indeed, as a facet of education. The underlying purpose of West Chester's athletic program is the development of enduring educational values. Important also is the training given to those who will later become coaches.

The athletic program is administered by the School of Health and Physical Education. To permit as many men students as possible to participate, the School offers a wide variety of activities, including football, baseball, basketball, soccer, track, wrestling, swimming, tennis, gymnastics, golf, and cross-country. Schedules are sought which, while in the College's class, measure up to the high athletic traditions and standing of West Chester.

West Chester is a member of the National Collegiate Athletic Association, the I.C.4A., the Pennsylvania State College Athletic Conference, the East Coast Conference and a charter member of the Eastern College Athletic Conference.

West Chester's new Health and Physical Education Center and field complex afford excellent facilities and equipment for the College's broad and varied athletic program. All coaches are faculty members.

## **WOMEN'S ATHLETICS**

West Chester provides a broad variety of team, individual, and dual sports activities for its women students. Through participation in the planning, organizing, and performance of these sports, leadership capabilities are developed. All women students are eligible to take part in women's intramural and intercollegiate sports programs.

### **WOMEN'S INTERCOLLEGIATE ATHLETIC PROGRAM**

The intercollegiate program includes team and individual sports such as hockey, swimming, lacrosse, bowling, badminton, softball, gymnastics, basketball, tennis, and synchronized swimming, all of which provide competition with women of comparable abilities at other colleges. Participating students develop interest and skills in worthwhile leisure-time activities; promote cultural understanding through contacts with students from other colleges; and gain coaching experience. WIAP activities are conducted by the adviser of the program, the women coaches and a student advisory council consisting of the varsity sports managers. The program is guided by the standards and policies of the Division of Girls' and Women's Sports, a wing of the American Association of Health, Physical Education, and Recreation.

### **RECREATIONAL SERVICES**

Diminishing work hours and technological advances have given new dimensions to leisure in modern society. This change led to the College, in 1972, to establish Recreational Services, giving the entire college community an opportunity to discover interesting and rewarding uses of leisure time. Conducted under the supervision of the School of Health and Physical Education, Recreational Services has developed a great variety of informal activities which extend beyond the School's organized athletic programs.

Recreational Services utilizes college facilities and are partially financed through Intracollegiate Governmental Association funds.

### **GENERAL SERVICES**

General Services activities are of a non-competitive nature, both organized and informal. Informal programs include providing recreation equipment to individuals and groups for leisure time use and scheduling swimming pool facilities and gymnasium for free play. Formal programs provide instruction classes in Arts and Crafts, skiing trips, slimnastics, golf, square and folk dances, bowling, roller and ice skating parties, bicycle trips, and a Run-For-Fun jogging program. A new picnic area for use by the college community was added in 1975.

General Services publishes the Recreational Services Handbook describing available activities.

### Intramural

The Intramural Program is designed to afford every student the opportunity to participate in individual and/or group competition. Emphasis is placed on providing this experience for those students who do not have time, desire, ability, or physical attributes to participate in intercollegiate athletics. Included in the program are mens flag football, volleyball, and cross country; for women, softball and basketball; coed activities are volleyball, badminton, arm wrestling, foul shooting, and paddleball.

### Sports Club

Sports clubs have been growing in popularity as a means of meeting the recreational needs of college students. Students, faculty, and staff members with similar sports interests have the opportunity to enjoy these interests together. West Chester has nine sports clubs recognized by the College and the Intracollegiate Governmental Association and coordinated through Recreational Services. Each club selects its own faculty advisor, develops a constitution based on the club's philosophy, elects its own officers, and sets up the training schedule and program. All full or part time undergraduate or graduate students are eligible to join any club. Persons interested in joining a club may contact the president of the club for details on becoming a member.

The student of history seeks to recreate the past (or, more precisely, as much of it as possible) not only rationally to explain and understand the past for its own sake, but also to identify himself and his age with earlier times. He is concerned with the origins and development of and relationships between past men and events and, from the multiplicity of credible and sometimes conflicting evidence, renders judgments on causation and consequences. He seeks to achieve a sense of the past. Among the careers open to history majors are the law, government service, teaching, research, journalism, and business. Indeed, a strong preparation in history can lead to possibilities in virtually every field of endeavor.

## BACHELOR OF SCIENCE IN MUSIC EDUCATION

## BACHELOR OF ARTS IN MUSIC

## BACHELOR OF MUSIC

The School of Music offers three programs of study leading to undergraduate degrees:

[ 1 ] *Bachelor of Science in Music Education*: a balanced program of general, specialized, and professional courses leading to qualification for a Pennsylvania Instructional I Certificate to teach music

in the elementary and secondary schools of Pennsylvania for three years. Three teaching concentration programs—general, instrumental, and vocal-choral—are provided.

[2] *Bachelor of Arts in Music*: a balanced program of courses which are general and specialized, providing a concentration area in either performance or a combination of music theory and music literature; structured for students desiring a liberal-arts education with a major in music.

[3] *Bachelor of Music*: a balanced program of courses which are general, specialized, and professional for the performing musician; structured for students desiring a college degree and interested in such areas as professional performance, studio teaching, and church music.

## ENTRANCE REQUIREMENTS

Candidates for admission to the School of Music must meet the general requirements for admission as indicated under Admission to West Chester. In addition, all candidates must appear for a personal interview and certain music tests, which vary according to the degree program sought.

The College will provide large instruments such as the tuba, string bass, or timpani for these tests. All smaller instruments must be brought to the College. All candidates will take the Seashore Measures of Musical Talents, for which no preparation is necessary.

The following are acceptable as "major" instruments: violin, viola, cello, bass, trumpet, trombone, baritone, tuba, French horn, oboe, English horn, flute, Bb clarinet, bassoon, and percussion (provided the candidate demonstrates an acceptable competence in playing various percussion instruments). The saxophone, guitar, and accordion are not considered acceptable major performance areas. However, the School of Music will audition a candidate on these instruments if he believes the audition will demonstrate evidence of his background.

TRANSFER STUDENTS—consult the paragraphs headed "Transfer Students" and "College Policies for Students Transferring from a Non-Accredited Institution" under Admission to West Chester.

## MUSIC TESTS—B.S. IN MUSIC EDUCATION

(1) Each candidate must demonstrate skill in at least one performing medium in which he excels: piano, organ, voice, or a band or orchestra instrument. It is preferable, although not required, for pianists and vocalists to perform at least part of their audition from memory.

(2) All candidates are tested in voice, piano, and sight singing.

(3) A piano, organ, or voice major who has band or orchestra instrument experience is urged to demonstrate his ability on his instrument.

Note: Each candidate must bring music for the vocal, piano, and instrumental compositions he intends to perform, and should come prepared with a song that will demonstrate vocal range and quality.

## MUSIC TESTS—B.A. IN MUSIC

Those planning to elect the concentration in performance must demonstrate an advanced level of accomplishment in an audition. Memorization is preferred for vocalists and pianists.

**MUSIC TESTS—B.MUS.**

Each candidate must demonstrate an advanced level of proficiency in the major area of performance as evidenced by his ability to perform compositions representing a variety of musical periods and must show potential as a professional performer. Memorization is required for pianists and vocalists.

**NOTE**

It is strongly recommended that candidates for the B.A. and B.Mus. degrees take all tests required for admission to the B.S. program. Doing so will be a great advantage in the event the candidate later chooses to enter the College in that program.

**SCHOOL OF MUSIC DEGREE PROGRAMS****B.S. IN MUSIC EDUCATION**

Candidates choose one of three teaching concentration programs—general, instrumental, or vocal-choral. They must satisfactorily complete 128 semester hours, distributed among the following areas:

1. General Requirements 44 s.h.  
See page 63  
The following Cognate Requirements are credited to General Requirements:

The Department of Nursing believes that quality health care is a basic right to all people and that man's health care needs can more adequately be met through the preparation of the professional nurse who completes courses in the social and natural sciences, humanities, and the nursing major.

Characteristics of the graduate include: 1) an awareness and sense of responsibility for contemporary social issues; 2) concern for improvement of health care within society through professional citizen activities; 3) competency in utilizing the nursing process to assist clients at various adaptational levels and development stages in a variety of settings; 4) collaboration, coordination and consultation as a colleague within the interdisciplinary health team; 5) belief in learning as a life-long process; 6) utilization of the scientific method to make decisions based upon predictable and unpredictable results in providing health care; 7) participation in the change process by collection of data applying to nursing theories and practice.

## **SPECIAL REQUIREMENTS**

The psychologist endeavors to apply scientific processes in order to explain, predict, and in some cases control human behavior. A bachelor's degree in psychology should prepare the student to understand those variables, such as heredity, learning, and the environment, which shape and change behavior. Careers are possible in clinics, guidance centers, industry, hospitals, schools, and government.

---

The Women's Studies Program consists of an interrelated group of courses offered across a wide spectrum of disciplines by individual departments. The Program is under the supervision of the Steering Committee for Women's Studies which decides what courses are acceptable to the Program. This Program is envisaged primarily as an enrichment to liberal education rather than as pre-professional study, although the social transformation that is taking place both in society and in intellectual life may ultimately make study in this area a professional asset.

The aim of the Program is to integrate the distaff experience into the curriculum and to encourage inquiry into previously neglected areas such as women's history and prehistory, women writers, artists and historical figures, female psychology, etc.

Celebrate summer at West Chester State College this year amid the country of Wyeth landscapes and colonial battlefields—yet only a short ride away from metropolitan Philadelphia or Wilmington. The best of the city and country combine at West Chester to offer every facet of summer celebration and celebration.

Whatever the reasons for considering summer school—acceleration of a degree program, personal enrichment, grade improvement, change of major, study vacation or a myriad of other possibilities—West Chester is the school to consider.

Taking courses needn't interfere with vacation plans. West Chester's arrangement of a three-week Pre-Session in June, a six-week Regular Session from late June to early August and a three-week Post Session in August make it easy to arrange vacation schedules.

Some courses such as the art, dance, and theatre workshops reflect the free spirit of summer as students produce serious work in an informal atmosphere.

Other courses are in themselves celebrations of summer. Five-day mini courses in biology in summer wildflowers (Bio 476), common trees (Bio 475), and the living forest (Bio 472) study "This whole Experiment in Green" first hand as does the Environmental (Outdoor) Education Workshop (EdO 411) in which white-watering and camping are only a few of the planned activities.

West Chester is more than just a summer celebration, however. If you would like more information about the college, fill in the coupon in the back of this catalog. Chances are you'll want to rejoice in all the seasons at West Chester.

# GENERAL INFORMATION

## **ABOUT THE COLLEGE**

West Chester State College is the second-largest of the fourteen institutions of higher learning operated by the Commonwealth of Pennsylvania. Now in its second century, the college is a multi-purpose, comprehensive institution offering a wide range of both undergraduate and graduate programs. New courses and areas of study are constantly being developed to meet changing needs.

## **SUMMER SESSIONS**

At West Chester State College, the summer program is divided into three sessions of three, six, and three weeks, respectively. The calendar for 1977 appears inside the front cover of this book. Course offerings for each of the sessions follow. In addition, there are a number of workshops, some of which follow a different schedule, listed under "Workshops and Special Offerings."

Additional information on the summer program can be obtained from the Office of Summer Sessions located in the Learning Research Center. Information on specific courses or copies of West Chester's catalogs are available from the Undergraduate Office in Learning Research Center and the Graduate Office in Old Demonstration.

## **HOW TO REACH WEST CHESTER**

The Borough of West Chester is easily accessible from all directions both by car and public transportation. Route 3, the West Chester Pike, leads directly into town from center-city Philadelphia. From the Pennsylvania Turnpike, motorists traveling west should take Route 202 south from the Valley Forge Interchange while those traveling east can arrive via Route 100 south from the Downingtown Interchange. From the south, Route 202 from Wilmington and Routes 100 and 52 from U.S. Route 1 all lead to West Chester.

By public transportation, SEPTA buses run from the 69th Street Terminal in Philadelphia into the center of town while the Penn Central Railroad also operates a limited schedule from Philadelphia's 30th Street and Suburban Stations to West Chester.

## **A LOOK AT THE TOWN AND COUNTRY**

Located in a basically agricultural region within easy commuting distance of several major metropolitan areas, West Chester offers the best of the worlds of city, country, small town, and suburbia. A community of approximately 20,000, the town is about 25 miles west of Philadelphia and 17 miles north of Wilmington, Delaware. The interstate highway system and good rail connections make New York City and Washington, D.C. also easily accessible.

West Chester is the county seat of Chester County and the hub of activity for the surrounding area. It is a marketing, banking, social services, and library center as well as a focus of light industry.

Despite recent rapid growth, West Chester retains its own special flavor and historical dignity. Originally settled by the Quakers during colonial times, the town still has streets lined with well-kept 19th Century brick houses, many with detailed ornamental iron decoration from nearby forges. West Chester residents are proud of their historical community and take care in preserving its many architectural gems including public buildings, churches and homes.

History, art, and architecture buffs can have a real field day . . . many of them actually . . . in Chester County. Within short driving distance are Valley Forge, Longwood Gardens, the Brandywine River Museum (full of paintings by the Wyeth family and other members of the Brandywine School) and the Brandywine Battlefield.

Other nearby points of interest include Anthony Waynes' farm home (Waynesborough) and his grave at St. David's Church, the house once occupied by poet Sidney Lanier, the Mason & Dixon Star-gazer's Stone, St. Peter's village noted for its old houses and quaint shops, and numerous beautiful and interesting houses and barns for which the county is highly famed.

Chester County's enthusiasm for its many cultural and historical sites is contagious so that even those whose interests generally lie in other areas are often soon caught up in flavor and feelings of the area.

## **HOUSING**

West Chester has attractive, well-appointed high-rise residence halls. These are conveniently near Lawrence Center where the dining room, post office and snack bar are located and the Sykes College Union Building with its well-stocked store, lounges, recreation facilities and snack bar. In addition each dormitory has lounge, TV and recreation areas.

Apply for a room after sending pre-registration forms by writing to the director of housing, Room 206, Sykes College Union. This written application must be received at least one week prior to the beginning of the session for which it is being made.

## **THE COUNSELING CENTER**

The Counseling Center, staffed by psychologists who are trained to work with college students, offers professional counseling and psychological services to students with educational, vocational, personal, social, and emotional concerns. Counseling is offered on an individual and small group basis, the nature of which varies with the needs of the student. All interviews and test results are strictly confidential.

The services of the Counseling Center are available at no charge to all West Chester State College students. Appointments may be initiated by students either by phone, 436-2301, or by visiting the Lawrence Center, Room 129, Monday through Friday, 8:00 a.m. to 4:30 p.m. Every attempt will be made to see a student within the same day, though this may vary with the demand for services.

## **VETERANS' AFFAIRS**

West Chester is an accredited college for the education of veterans and maintains an Office of Veterans' Affairs. To apply for benefits, veterans should visit this office located in the Old Demonstration School.

## **FRANCIS HARVEY GREEN LIBRARY**

With a collection of more than 320,000 volumes and subscriptions to more than 2,500 journals, West Chester's library is a valuable resource for study and research. The general collection is augmented by an extensive micromedia collection representing an additional 300,000 titles along with facilities for reading this material.

The Special Collections Room houses the Chester County Collection of scientific and historical books; the Normal Collection (historical books and publications by and about the faculty and alumni); *The Biographies of the Signers of the Declaration of Independence* by John Sanderson; and the Shakespeare Folios.

Other collections of note include a variety of audio-visual materials in the Instructional Materials Center; a comprehensive music library in Swope Hall; the Philips Autographed Book Library housed in a specially designed room in the Philips Memorial Building; and separate collections of children's literature and government documents.

## **RECREATIONAL SERVICES**

For those who like to get away from it all, West Chester has interesting cultural, social, and sports activities in the summer. Recreational Services—the office responsible for meeting the leisure-time needs of summer students—arranges such regular features as excursions to Robin Hood Dell in Philadelphia, Longwood Gardens and professional baseball games.

Recreational equipment is available to summer students. Items

for loan range from tennis rackets, baseball equipment, volleyballs, softball bats and balls, to tents, sleeping bags, and bicycles. The equipment is loaned from Ehinger Gymnasium.

There are intramural softball and volleyball leagues for both men and women.

Social programs include dances, student-faculty coffee hours, music programs and a cinema series.

The following facilities are open for informal recreation use: Hollinger Gymnasium (College Avenue), the tennis courts on both North and South Campus, Ehinger Gymnasium, and Recreation Park, behind Sanderson Hall. Swimming will be provided as facilities are available.

For details, phone or see the Coordinator of Recreation Services, South Campus (436-2133).

### **PLACEMENT SERVICES**

The college maintains an active Career Development Center for its students. Career services are offered to all students and alumni at no charge. Counseling and career planning are also available. Location: Lawrence Center.

### **EMPLOYMENT AND LOANS**

Students interested in part-time or hourly work on campus or in the community, should communicate with the Office of Financial Aid, Lawrence Center. That office also has information about loans.

### **STUDENT HEALTH SERVICE**

To meet emergency and first-aid needs and to perform routine infirmary treatment of minor illness and minor surgical conditions, two part-time physicians and a staff of registered nurses are available at no cost to students. Beyond these services, the college does not furnish medical care nor bear the costs of medical or surgical treatment or hospitalization. The community of West Chester has qualified physicians and excellent hospital facilities. The Health Service is in Reynolds Hall where, for emergencies, a nurse is on duty on a 24-hour basis, except Saturday nights from 12:00 Midnight to 8:00 a.m. Sunday.

Summer students may take advantage of a group medical and accident policy, approved by the college and covering them for the 12 weeks of the summer session, at a minimal premium. See the Health Service.

### **APPLYING FOR ADMISSION FOR THE ACADEMIC YEAR**

The first of several steps toward admission to fall and spring semesters is the filing of application forms, available from the Office of Admissions.

## **WITHDRAWAL FROM A COURSE**

Withdrawal from a course or courses must be initiated by the student, who first reports his intention to withdraw to his instructor, and then goes to the Office of the Registrar (formerly Enrollment Center) in the Learning and Research Center to complete the procedure. Courses from which a student withdraws without following this procedure produce an F.

See Fees and Expenses for withdrawal refund policy.

## **COURSE CHANGES**

After Registration Day, the course-change periods are:

Pre and Post Sessions: the Tuesday following Registration Day.

Regular Session: the Tuesday and Wednesday following Registration Day.

Place: Office of the Registrar.

Course changes may also be made **before** the pre-registration deadline of a session, in the Summer Sessions Office.

## **TEACHER CERTIFICATION**

**Instructional I Certificate.** A student who satisfactorily completes one of the college's teacher education curricula receives his degree from the college and qualifies for an Instructional I Certificate, issued to him by the Pennsylvania Department of Education. This certificate is valid for three years of teaching.

**Instructional II Certificate.** This certificate requires three years of successful teaching in Pennsylvania public schools under the Instructional I Certificate and satisfactory completion of 24 semester hours of additional work of collegiate grade, taken after the baccalaureate degree is received.

The 24-semester-credit-hour requirement may be satisfied, in whole or in part, through in-service programs approved by the Pennsylvania Secretary of Education. The Instructional II Certificate is a permanent license to teach in Pennsylvania.

Either certificate may be extended to include another field by completing the college requirements for that field. (See Undergraduate Studies Catalog.)

## **COLLEGE REGULATIONS AND POLICIES**

Regulations pertaining to student procedure and conduct during the academic year are also in effect for summer.

The class-absence policy for the academic year applies in summer.

All academic policies may be noted in the Undergraduate Studies Catalog.

## **SUMMER GRADUATION**

Students who expect to graduate at the end of the summer sessions are urged to attend the Spring Commencement preceding summer sessions. It is the student's responsibility to notify the Office of the Registrar in person of anticipated graduation and to see that his or her name, written as desired, is placed on the list of prospective graduates. This should be done as early as possible in the spring semester.

## ADMISSION TO SUMMER SESSIONS

Admission to summer sessions is really a simple matter. First, schedule. Second, register. Scheduling is completed by submitting to the Summer Sessions Office a schedule form listing the desired course(s). (This process is also known as pre-registration.) By meeting the scheduling deadlines, the student can have a bill and schedule waiting on Registration Day. Registration is completed only when complete payment for courses has been made on Registration Day. Instructions follow.

## HOW TO SCHEDULE

In this catalog (or at the Office of Admissions) are schedule forms (pre-registration). Just fill them out completely. Students in other colleges must ask a responsible official of that college or school to sign the schedule card.

Then, mail or bring the forms to the Summer Sessions Office. That's all there is to scheduling. The next move is to report to Lawrence Center (with appropriate checkbook!) on the registration day for each session.

The scheduling period begins March 15 and remains open for each session until its deadline date.

### Scheduling Deadlines

PRE: Thurs., May 26. . . . .  
REGULAR: Fri., June 17. . . . .  
POST: Fri., July 29. . . . .

### Registration Days (also Payment Days)

PRE: Mon., June 6  
REGULAR: Mon., June 27  
POST: Mon., Aug. 8

Forms must reach us by the deadline for each session(or sessions) to avoid a \$10 late fee.

It is possible to change a course in the Summer Sessions Office *BEFORE the scheduling deadline* for a session. After that, no course changes may be made until registration day.

# SUMMER WORKSHOPS/OTHER SPECIAL OFFERINGS

## Art

### Art Workshop (Art 105)

(for Non-Majors)

Pre and Regular Sessions

Deep-down, most people would like to paint. Take Winston Churchill. Now Sir Winston, let's face it, was a far, far greater statesman than artist. But, he liked to paint. So did President Eisenhower. So do lots of just plain, everyday people—some who surprise themselves with their talent, and all who enjoy themselves. Our Department of Art had people like this in mind when it launched this open workshop several years ago. It has caught on with surprising success. Or perhaps not so surprising: from long tradition, Chester County is painting country. The 18th century's Benjamin West grew up here; so did the primitive, Edward Hicks, and Mary Cassatt, the impressionist. Three generations of Wyeths have found Chester County an optimum environment for painting. The Wyeths have a good deal to do with this area's unusually high interest in the arts. But, back to our workshop; it explores techniques in painting, drawing, design print-making, and 3-dimensional media. (3 credits)

### Studio Workshops

All three sessions

Closely akin, in their open nature, to the Art Workshop are a number of workshops in sculpture, painting, weaving, ceramics and drawing extending through all three sessions. These, too, are beginners as well as the more experienced. Scan the course listings for details.

## Biology

## **Secondary Education**

### **Environmental (Outdoor) Education Workshop (EdO 411)**

Post Session

While participants in the Environmental Education Workshop put in their fair share of hard work, any description of the program still reads more like a wilderness vacation brochure than of a course offering. A field-centered learning experience, the workshop includes camping trips; several days at the Ohio Pyle State Park area for a study of flora and fauna and a day of white-watering; and a field investigation of the Wild Waterfowl area near

Lebanon. Staff from the Pennsylvania Game Commission take part in some of the field expeditions, and there is other interaction with various governmental agencies as well as informal investigation of various problems. Designed to integrate the wide range of background and interests among the participants, this workshop provides credit toward certification, may be taken as an elective or may be taken on an auditor's basis. For further information, write Mr. John Holingjak, Coordinator of Environmental Education, West Chester State College, West Chester, Pa., 19380, or phone (215) 436-2791. (3 credits)
